7.02.00. - Use variances.

7.02.01. *Generally.*

A. *Granted by city commission.* The city commission may grant a use variance from the strict application of any provision in article II (Zoning) that pertains to permitted uses, if the following findings are made.

B. *Variances to be considered as part of development review.* Any person desiring to undertake a development activity not in conformance with the provisions in article II (Zoning) that pertain to permitted uses may apply for a use variance in conjunction with the application for site plan review. A development activity that might otherwise be approved by the zoning director must be approved by the city commission if a use variance is sought. The variance shall be granted or denied in conjunction with the application for site plan review.

7.02.02. *Limitations on granting use variance.*

A. *Public hearing.* The city commission shall schedule a public hearing upon receipt of an application for a use variance to be held within 31 days after receipt of same. Public notice of such hearing before the city commission shall be given in accordance with the Code of Ordinances of the City of Sweetwater. Upon conclusion of such public hearing, the city commission may consider the said application and, if it chooses to grant same, it shall do so by resolution of five-sevenths of its members.

B. *Required findings.* The city commission shall not vary the requirements of any provisions in article II (Zoning) that pertain to permitted uses, unless it makes a positive finding, based on substantial competent evidence, on each of the following:

1. That the proposed use variance will maintain the functional design and integrity of the adjacent neighborhood.
2. That the use variance will not substantially or permanently injure the appropriate use of adjacent conforming property in the neighborhood.
3. Literal interpretation of the provisions of this code works unnecessary and undue hardship on the petitioner.
4. That the use variance will not alter the essential character of the district in which is located the property for which the use variance is sought.
5. That the use variance will be in compliance with the city's comprehensive master plan.
6. That the use variance will be in harmony with and will not weaken the spirit and purposes of the zoning code.
7. That the use variance, if granted, will not adversely affect the public health, safety or welfare of the city or its citizens.

C. *Imposition of conditions.* In granting an approval involving a use variance, the city commission may impose such conditions and restrictions upon the premises

benefitted by a variance as may be necessary to allow a positive finding to be made on any of the foregoing factors, or to minimize the injurious effect of the use variance.

7.02.03. Use variance expirations and extensions.

[A.] A use variance granted under the provisions of this code shall automatically expire under the following conditions:

(a) If a permit has not been issued by the building official within six months from the date of granting of the use variance (or date of any final court order granting or modifying the use variance), in accordance with specific plans for which that use variance was granted.

(b) If a permit is issued within the required time period, if work has not been completed and a certificate of occupancy has not been issued under that permit, within one year from permit issuance date.

B. Extensions to expiring use variances may be made by the city commission for a single one-year period, or portion thereof, upon receipt of written request from the applicant not less than 45 days before the expiration of the approved use variance, stating the reasons for the extension request.

7.02.04. Variance applications. Application for a use variance shall include the following information:

(a) Address, location and legal description of the subject property.

(b) Existing zoning of property.

(c) Proof of ownership acceptable to the city; or if applicant is a tenant, provide owner's sworn to consent affidavit.

(d) Disclosure of interest (on form provided by city).

(e) A statement as to the reasons for the requested variance.

(f) A certified survey, prepared within one year from date of application, which shall include:

1. An accurate legal description of the subject property; and

2. A computation of the total area of the property in square feet and to the nearest tenth of an acre.

(g) A statement as to how the requested variance adheres to the review standards set forth in section 7.02.02.

(h) Recommendation of the zoning director.

(i) A complete list and labels of all property owners, mailing addresses and legal descriptions for all property within 300 feet of the subject parcel as recorded in the latest official tax rolls in the county courthouse. Such list shall be accompanied by an affidavit stating that to the best of the petitioner's knowledge said list is completed and accurate.

9.04.00. - Procedure for review of site plans.

9.04.01. Pre-application conference. Prior to filing for site plan review, the developer shall meet with the zoning director and city planner to discuss the development review process and to be informed of which staff members to confer with about the application. No person may rely upon any comment concerning a proposed site plan or any expression of any nature about the proposal made by any participant at the pre-application conference as a representation or implication that the proposal will be ultimately approved or rejected in any form.

9.04.02. Review of site plans.

A. The developer shall file a completed application and three copies of the site plan with the building department.

B. Within 30 days of receipt of an application, the zoning director, city engineer and city planner shall review the submittal and shall either:

1. Determine that the submittals are incomplete, deficient or not in conformance with this code, and inform the developer in writing as to the deficiencies. The developer shall have 45 days to correct the deficiencies and resubmit corrected site plans. If the developer fails to do this, the site plan shall be denied approval.

2. Determine that the submittals are complete and in conformance with this code and grant approval.

3. Determine that the submittals are complete, but the development activity proposed is not in conformance with the code and is in need of a variance. In this case the developer may apply for variance(s) per article VII.

(b)

9.04.03. Contents of site plan submittal.

A. Site plans shall be drawn to a scale of not less than one inch equals 50 feet, and shall include:

1. Name, location, owner and designer of the proposed development.

2. Scale and north arrow.

3. Current zoning of property.

4. Proposed use of property.

5. Tabular summary of:

a. Lot area, net and gross.

- b.** Number of residential dwelling units including their characteristics by number of bedrooms.
- c.** Nonresidential floor area by type of use and total gross square footage.
- d.** Residential density calculations.
- e.** Building height.
- f.** Open space and impervious coverage.
- g.** Floor area ratio.

6. All existing and proposed improvements, clearly delineated, labeled and Dimensioned.

7. Parking and loading calculations.

8. Any other information requested by the city.

B. The site plan shall be accompanied by the following:

a. Property survey.

b. Drainage plan (per article [section] [4.05](#)), if applicable.

c. Landscaping plan (per article [section] [4.06](#)), if applicable.
