### **IT Manager – POSITION # 1115 – FULL-TIME**

---

**Applications will be considered on a first-come, first served bases. Deadline for accepting applications: Until Filled**

Under the broad policy guidance of the Mayor this position serves as a key member of the City's leadership team with direct responsibility for the effective implementation of strategic and operating initiatives. The Information Technology Manager provides vision and leadership in the operation and management of the Information Technology Department by implementing strategies and systems to enhance operations, management of employees, customer satisfaction, and budget management. The ideal candidate will assess the impact of emerging technology on the organization by keeping current trends in the IT industry, and will ensure the continuous delivery of high quality services through the coordination, evaluation, deployment and management of current and future IT systems. Through strategic thinking and effective leadership the Information Technology Manager will foster innovation and exercise considerable initiative and independent judgement.

#### **Requirements:**

Minimum of a Bachelor's degree in computer sciences or related field. Advanced degree preferred

Eight (8) years of responsible information systems experience to include three (3) years at a supervisory/management level

Experience in data communications, telephone communication systems, intra/internet structure transmissions, installations and maintenance of local and wide area networks
